## Experience

### Ypsi Performance Website User Experience Designer

- Consulted early-stage research and preparation for a new website.
- Create the website from foundation to completion.

Feb 2018 - Current - Ann Arbor, MI

### UMSI - Design Clinic User Experience Design Intern

- Consulted information architecture for WCBN (a local radio website).
- Conducted 7 user interviews and found out what information users cared about when they landed on the radio website.
- Redesigned WCBN website as the results of qualitative research and provide suggestions on the color scheme and information architecture.

Oct 2017 - Dec 2017 - Ann Arbor, MI

### Schneider Electric Data Services Associate

- Provided leadership, training and on-going support to the rollout of multiple new clients in parallel.
- Engaged members at all levels of the organization through the distribution of information for numerous commodities for both domestic and international customers.
- Worked directly with client's finance / accounting resources to interpret and integrate required accounting practices through the utility bill payment implementation.

June 2015 - June 2016 - Louisville, KY
